

Overview

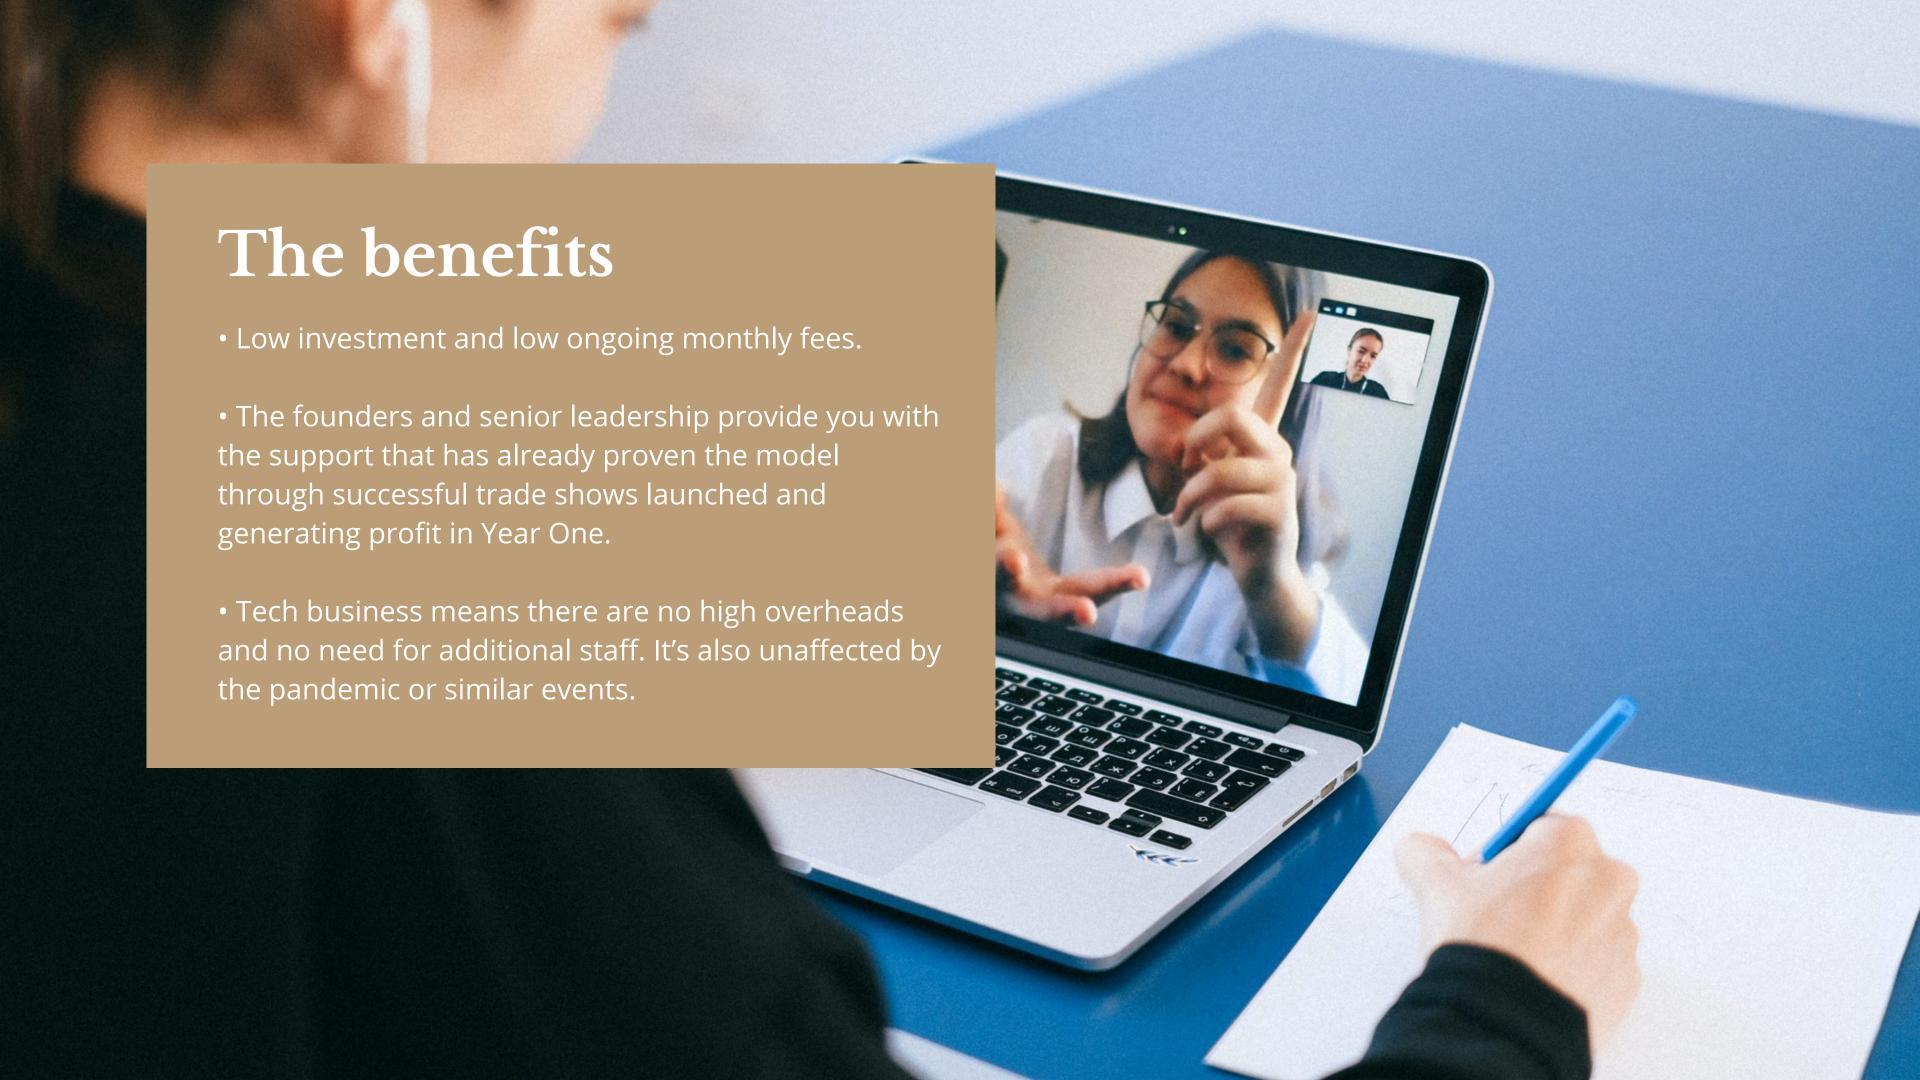

WeddingShow247 is now available to be run as a local business under a license. We have created a proven model to showcase local wedding suppliers and services in a sustainable and virtual way, so exhibitors can create a branded space where they can display information, videos, images, testimonials, and documents as well as use the features such as the events page, news section, seminar room, and blog area.

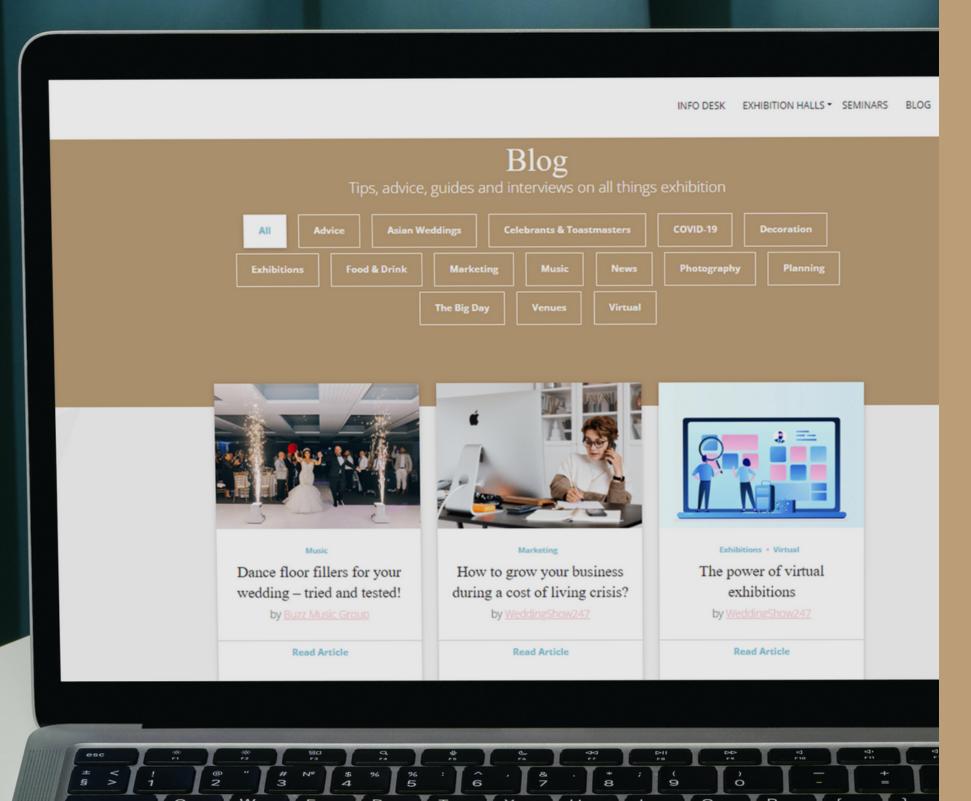

All this creates exposure and brand awareness, allowing visitors to easily access wedding suppliers and services 24/7 from the comfort of their own home on any device.

With this proven and successful model, we are now licensing out WeddingShow247 to territories in the UK so individuals can have their own virtual business to run from home, around family commitments or even to run alongside another job and generate an income.

What you are responsible for?

(With our help through training and ongoing support)

- •Find wedding suppliers and services in your chosen region.
- •Marketing to end users and exhibitors.
- •Set up social media accounts.
- •Contacting companies, arranging meetings, sending information on how they can become an exhibitor on the platform, and getting exhibitors onboard.
- •Sending and receive contracts from clients.
- •Invoicing clients.
